BARBARA PONCET

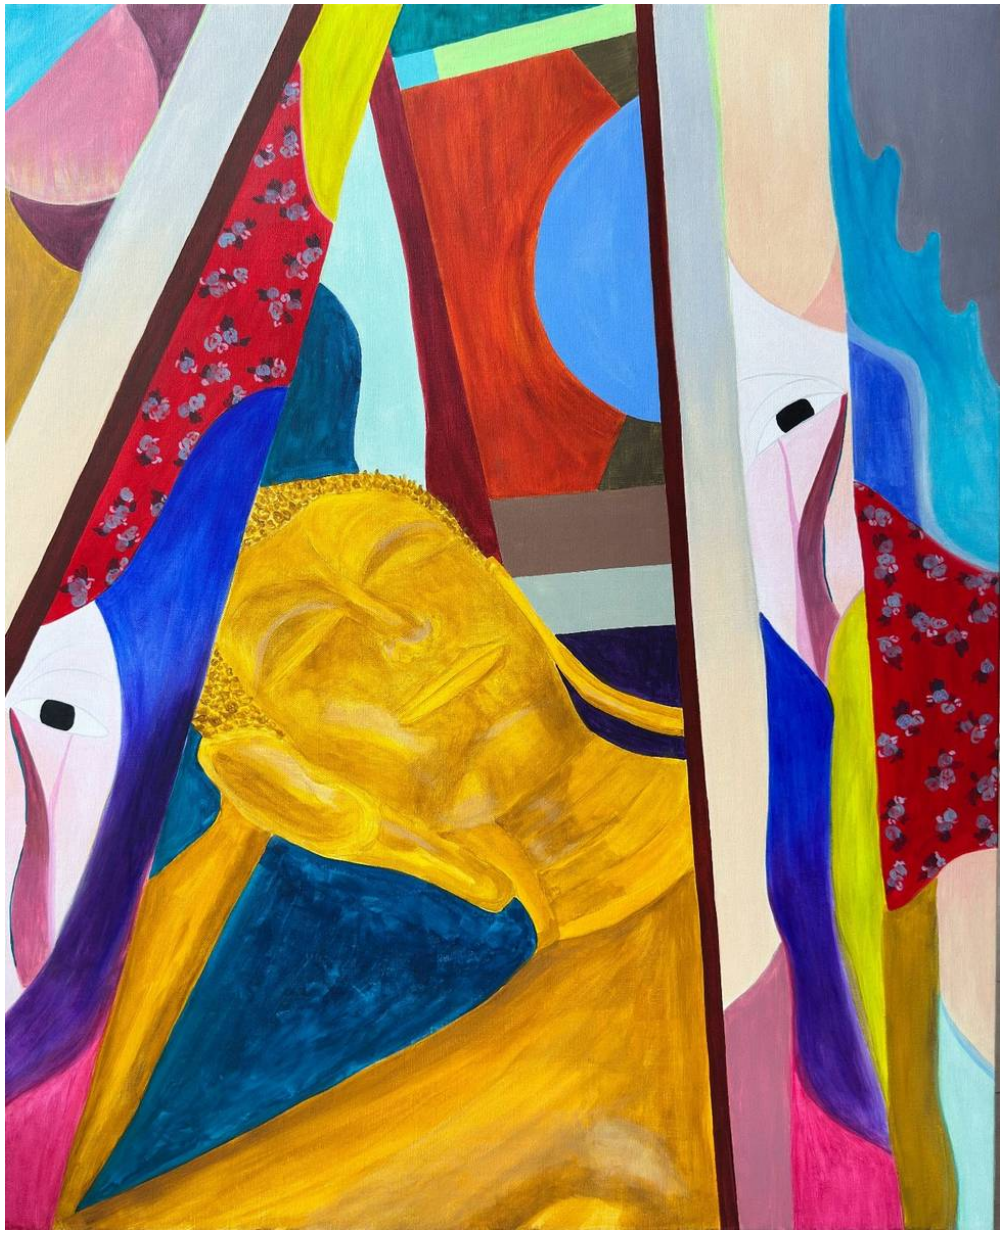

PAINTINGS & TEXTILE WORKS — PORTFOLIO 2026

Barbara Poncet lives and works in Paris. Moving between figuration and abstraction, her paintings draw on details of everyday life that often go unnoticed — a riverbank in Bangkok, a reclining figure, a passing light. She is interested in how a single image can hold different meanings for different viewers.

Trained in fashion and textile design, she first built her work from fragments of clothing — denim, workwear, worn fabric — exploring the traces that time and wear leave in material. That attention to surface and memory now carries into her painting.
